

The Boston Green Justice Coalition

Imagine your community as a green community...

Going green means more than windfarms on the Cape and solar panels in the suburbs...

The Boston Green Justice Coalition is a partnership of community groups, labor unions, environmental organizations and other allied organizations who are building a broad-based effort in support of a sustainable, equitable and clean energy economy in the Boston region. We are dedicated to ensuring that our region's growing green economy will create **quality jobs**, **healthier communities** and **energy savings** for low income residents.

Please join us to kickoff this exciting and innovative campaign

Saturday December 6th @ 10:00am

Twelfth Baptist Church Roxbury (150 -160 Warren St.)
